Give children with diabetes a voice. Join us.

DiabetesInCASchools.com is a new, fully comprehensive website devoted to preserve and protect the basic human and civil rights of children with diabetes to receive appropriate care at school. By providing you with important news, unique tools and vital resources, we will make every child with diabetes safe in California's schools.

Stay current on legislative news! AB 1802 is a new bill that is now before the California Legislature. The bill provides a framework for the training of voluntary unlicensed school personnel to safely and appropriately administer insulin to children with diabetes in California schools. **Sign up to receive news alerts and calls to action.**

Find the **latest news and Public Records Act data** on what schools/districts are self-reporting about providing diabetes care to its students. Learn about the process for establishing a **504 Plan and Diabetes Medical Management Plan** with unique tools, resources and important contact information to support you every step of the way.

Working in partnership with diabetes and disability rights organizations and professionals - including the American Diabetes Association, DREDF, the Juvenile Diabetes Research Foundation, and Reed Smith LLP - we are a grassroots advocacy effort committed to the rights of children with diabetes to fully receive appropriate care at school. We invite you to join our rapidly expanding network of supporters!

Check us out at: www.DiabetesInCASchools.com and **sign up today!**

In Partnership,

Lisa Shenson & Jim Stone, Grassroots Co-Chairs
