# Partnering to Make Whole Child Model Work for CCS Children and Families

**Moderator:**

**Laurie Soman**

**Director, Children's Regional Integrated Service System (CRISS)**

**Senior Policy Analyst, Lucile Packard Children's Hospital Stanford**

# County Perspective

## How Whole Child Model Differs from Classic CCS

**Lael Lambert, Marin County CCS**

**Meredith Wolfe, Humboldt County CCS**

**Francesca Peterson, San Luis Obispo County CCS**

# Division of Responsibilities

## CCS in Classic County

Activity	Who is responsible
Determine Initial and Ongoing Eligibility	County CCS
Provide Medical Case Management	County CCS
Authorize Provider Requests For Service	County CCS
Pay Claims	State System with County Share of Cost

## CCS in WCM

Activity	Who is responsible
Determine Initial and Ongoing Eligibility	County CCS
Provide Medical Case Management	Managed Care Plan
Authorize Provider Requests for Service	Managed Care Plan
Pay Claims	Managed Care Plan

# Case Management

## CCS in Classic County

Customized for Children with Complex Health Care Needs

Assigned Public Health Nurse Case Manager Provides Proactive Medical Case Management

## CCS in WCM

Standardized for Entire Medi-Cal Population

Currently Parent/Family Calls Managed Care Plan Call Center/Member Services to Access Case Management

Responsibility to Request Help Falls to Family

Episodic Care Coordination

# Case Management

## CCS in Classic County

Any CCS-Paneled Medi-Cal Provider Can Be Authorized (Similar to “In-Network”)

Access to Appropriate Providers Across Entire State and Beyond, Depending on Child’s Condition

## CCS in WCM

Access Limited to Who Is “In-Network” with Managed Care Plan or to Providers Who Sign Letter Of Agreement with Plan

No Mechanism to Ensure Child’s Providers Are CCS-Paneled

# Case Finding

## CCS in Classic County

Anyone (Parent, Provider, Community Agency) Can Refer Child to CCS

Children and Youth Who Need Specialized Medical Therapy Services Made Eligible For Medical Therapy Program (MTP)

CCS Reviews NICU and High-Risk Infant Follow-up Reports to Find Infants/Children Who Need MTP Referral or Other Specialty Referral

## CCS in WCM

Anyone Can Refer But Over Time Fewer Providers/Community Members Aware of CCS Because No Longer Is Relationship with CCS Office

Referral Rates to CCS Have Dropped

No Direct Pipeline from MCP to Medical Therapy Program So Fewer Referrals to MTP

# Case Finding

## CCS in Classic County

CCS Has Policies to Ensure Newborn with Failed Metabolic or Hearing Screening Receives Intervention As Quickly As Possible

CCS Serves Newborns Without Medi-Cal

## CCS in WCM

Delays Can Occur Because of Delays in Newborn Enrollment in MCP

Delays Can Occur Because CCS Nurse Is Not Reviewing NICU Records to Find Newborn Screening Results

WCM Only Serves Newborns Enrolled in MCP

# Annual Medical Review (AMR)

## CCS in Classic County

Medical Documentation Easily Available

- Counties Have Computer Access to Most Special Care Center Medical Records and Processes for Requesting Appropriate Records from Other Providers
- Counties Have Staff to Collect Records
- Some Medical Reports Already on File
- AMR Includes Plan for Case Management
- More Efficient AMR Because Nurse Case Manager Is Familiar With Child

## CCS in WCM

Medical Documentation Not Easily Available

- Managed Care Plans Responsible for Requesting Records from Providers and Sending to CCS for AMR

# SB 586 Advocacy

**Goal - Preserve as many of the strengths and protections in the CCS program as possible in move to managed care.**

- Ensure relationships with providers and case managers are maintained when possible.
- Require adherence to CCS standards and referrals to CCS-paneled providers, including annual SCC visit.
- Require case management by individuals with experience working with the CCS population.
- Ensure evaluation compares outcomes in WCM to Classic counties.
- Extend carve-out in non-WCM counties until evaluation complete.
- Ensure children are identified and referred to CCS.

# Take-Aways From the CCS WCM Evaluation

## Goal - Identify where and for whom the WCM did not meet or exceed performance of Classic CCS.

- Enrollment in the CCS program decreased by ~10% in WCM counties as compared to Classic CCS over time for all WCM phases except Phase I, and *new* enrollment decreased for all WCM phases.
- Other results were inconsistent across plans.
  - In some cases, WCM CCS provided fewer primary care and well-child visits, fewer specialist and CCS provider visits, and fewer annual SCC visits than Classic CCS.
  - WCM CSS less likely to ensure specialty visits were with CCS paneled providers.
  - PHP was not able to provide any referral data.
  - Most families indicated they did not know they could ask for continuity of care, but also reported this hadn't been a big problem.

# Take-Aways From the CCS WCM Evaluation Con.'t

- Parents and Key Informants noted consistently that case management was very different than it had been in Classic CCS.
  - Not centralized or coordinated by one person within the plans.
  - Case managers often not familiar with CCS children's medical conditions.
- Families who described their children's health as poor were much more likely to report quality of care was worse in WCM.
- Evaluators noted that evaluation was not designed to stratify and focus on specific subpopulations, including children with severe disabilities or those with significant subspecialty needs.

# WCM Expansion – AB 118 Advocacy

**Goal - Require reforms and data to help DHCS and stakeholders track and improve outcomes in WCM as indicated by evaluation.**

- Limit expansion to new COHS counties.
- Extend WCM advisory group through December 2026.
- Require DHCS to create CCS-specific utilization and quality metrics and analyze enrollment trends.
- Require a single point of contact at each MCP to coordinate care for CCS families.

# Status of WCM Reforms

- Updated CCS WCM All Plan Letter published December 27, 2023.
  - Primary point of contact for CCS families, instead of phone trees.
  - Referrals to CCS
- CCS Performance Measures Quality Subcommittee is finalizing CCS-specific utilization and quality metrics.
- Advocates are monitoring enrollment trends with the end of continuous enrollment during pandemic, and as new counties come online.
- DHCS must hold WCM plans accountable for meeting the requirements of SB 586, AB 118, and APL.

# Family Perspective

Changes Families Would Like to See by 2025

**Emilee Watson, Santa Barbara County**

**Lori Sato, Orange County**

# Health Plan Perspective

## Implementing AB 118 Changes and Preparing for Expansion

# About Us

## **Mission:**

*To help our members, and the communities we serve, be healthy.*

## **Vision:**

*To be the most highly regarded managed care plan in California.*

# Goal: Easing Transitions

- From CCS → WCM
- Across Locations
- Across Providers
- Through Ages and to Adulthood

## Primary point of contact for all children

- **Care Coordination Department**
  - Team approach – NCM, HCG, SW
  - Patient Centered Care to encompass all conditions
  - Families contact one entity rather than two providing efficient continuity of care
- **Contact – (800) 809-1350**
  - Phone – requests Case Manager by name or extension
  - Urgent needs
  - Member Portal

# Benefits

- Inpatient
- Outpatient
- Complex Case Management
- DME
- Rx
- Therapies
- Specialists
- Labs & Tests
- Imaging
- Transportation

# Monitoring and Reporting

- **CCS Enrollment**
  - CMS 22 report provided by the counties
  - Source of Truth – CMSNet
  - UM department monitors TARs for potential CCS Diagnoses
  - Concurrent review for HRIF
  - 834 file safety net
  - MCBI report from the state
- **Access to Special Care Center Visits**
  - Annual Medical Review
  - Claims data & reports

# Family Advisory Committee

## Creation and Support

Opportunity to share information, advocate, and connect

- Members include: parents, caregivers, foster parents, community groups, and consumer advocates.
- Quarterly meetings
- Partner with counties for referrals
- Case Managers discuss during calls
- Monitor recruitment & provide monthly updates to DHCS
- Historically – Visits to MTUs
